The Corpus Christi Regional Transportation Authority Board of Directors met at 8:30 a.m. in the Corpus Christi Regional Transportation Authority Staples Street Center facility located at 602 N. Staples Street, 2<sup>nd</sup> Floor Board Room, Corpus Christi, Texas.

#### Pledge of Allegiance

Chair Arthur Granado called the meeting to order at 8:35 a.m. He welcomed and gave a brief introduction for U.S. Veteran, Detective Albert Armendariz to lead the Pledge of Allegiance.

#### Safety Briefing

Mr. Mike Rendón, Deputy CEO, presented the safety briefing to the Board and audience. He provided exit instructions in the event of an emergency. Ms. Montiel would account for all Board Members and he would be the last out to ensure everyone exits safely.

#### Roll Call & Establish Quorum

Ms. Montiel called roll and it was noted there was a quorum present at this time.

#### **Board Members Present**

Lynn Allison, David Berlanga, Gabi Canales, Beatriz Charo, Jeremy Coleman, Arthur Granado, Anna Jimenez, Aaron Muñoz, Eloy Salazar, and Amanda Torres.

#### **Board Members Absent**

Armando Gonzalez.

#### **Staff Present**

David Chapa, John Esparza, Derrick Majchszak, Sharon Montez, Marisa Montiel, Rita Patrick, Mike Rendón, Gordon Robinson and Robert Saldaña. Alejandro Agustin, Natalie Grady, Catherine Lydia, Aureliano Marroquin, and Gonzalo Adams.

#### **Public Present**

David Johnson, Transpro. Paul Evans and Annie Merritt, AECOM.

# <u>Confirm Posting of Meeting's Public Notice in Accordance with Texas Open</u> <u>Meetings Act, Texas Government Code, Chapter 551</u>

Ms. Montiel confirmed proper posting of the meeting.

#### Public Notice on Executive Session

Chair Granado gave notice on Executive Session to the public.

#### Receipt of Conflict of Interest Affidavits

None

#### Opportunity for Public Comment

None

# Administer the Oath of City of Corpus Christi Appointment to the CCRTA Board of Director, David Berlanga

At this time, Mr. John Bell, CCRTA Legal Counsel, administered the oath for incoming City of Corpus Christi Appointee, David Berlanga. Photos were taken.

#### Awards and Recognitions

- a) CCRTA New Hires Mr. Derrick Majchszak, CEO, introduced CCRTA new hires to the Board. Photos were taken with Bus Operator Trainees: Payton Salsberry, Gonzalo Adams, Aureliano Marroquin, and Catherine Lydia.
- b) CCRTA Retirees Mr. Majchszak read short biographies on retirees Monty (Gene) Bounds (37 years of service) and Adley Martin (7 years of service).

# <u>Discussion and Possible Action to Approve the July 10, 2024 Board of Directors</u> <u>Meeting Minutes</u>

DIRECTOR BEATRIZ CHARO MADE A MOTION TO APPROVE THE JULY 10, 2024 BOARD OF DIRECTORS MEETING MINUTES. DIRECTOR ELOY SALAZAR SECONDED THE MOTION. ALLISON, BERLANGA, CANALES, CHARO, COLEMAN, GRANADO, JIMENEZ, MUÑOZ, SALAZAR AND TORRES VOTING IN FAVOR. ABSENT GONZALEZ.

#### Presentation on Microtransit Overview and Next Steps

Ms. Liann Alfaro, Director of Operations, presented an overview on Microtransit. She provided background noting Microtransit is on-demand transportation, has generated routing and has designated service areas. Microtransit would provide first/last mile connectivity, increase efficiency and modernize user experience. As part of CCRTA's long-range system plan, three areas were identified for future on-demand zones: Calallen/Annaville, Southside/Oso Bay and Southside Crosstown. Ms. Alfaro discussed the next steps which include the budgeting, planning and funding, software implementation, pilot program and commingling with Paratransit service. At this time, she answered questions from the Board. Director Salazar noted he was glad to see this update as this has been on his radar the past four years, and he supports moving forward.

#### **Committee Chair Reports**

- a) Administration & Finance Director Charo noted nothing to report.
- b) Operations & Capital Projects Director Muñoz noted nothing to report.
- c) Rural & Small Cities No report.
- **d)** Legislative Secretary Allison invited all Board Members to attend the tour with Representative Cloud at the CCRTA Maintenance Facilities on July 12<sup>th</sup> at 2:00 PM.

#### **Presentations**

# a) 2024 Quadrennial Performance Audit and Distribution of the Report as Per the State Transportation Code

Mr. Robert Saldaña, Managing Director of Administration, introduced David Johnson with TransPro Consulting to present the 2024 Quadrennial Performance Audit Report. Mr. Johnson noted the Quadrennial is a review of compliance with Chapter 451 of the Texas Transportation Code and TransPro was hired in April of 2024. He announced there were no findings and CCRTA is in full compliance with TTC 451. Next, he discussed and reviewed recommendations relating to safety, maintenance, performance indicators and contract oversight. Mr. Johnson closed with stating this report will be submitted to the State of Texas and addressed any questions from the board.

#### b) June 2024 Financial Report

Mr. Robert Saldaña, Managing Director of Administration, presented the June financials and noted that the item aligns with the Board Priority of Public Image & Transparency. He presented the highlights for the month stating Passenger Service was 99.77% of baseline, Staples Street Leases were 97.74% of baseline, and Investment Income was 131.73% of baseline. He displayed the June 2024 Income Statement Snapshot. Total revenues came in at \$4,755,445 and total expenses were \$4,666,848. He displayed the revenue categories. The operating vs. non-operating revenue was displayed and discussed. The total operating and non-operating revenues and capital funding were \$4,755,455 for the month. Next, he discussed and displayed a pie chart of where the money went. Mr. Saldaña showed the expenses by object for June. He presented YTD the highlights stating Passenger Service was 102.46% of baseline, Bus Advertising was 100.96% of baseline, and Investment Income was 135.62% of baseline. Mr. Saldaña discussed the fare recovery ratio. The YTD total operating and non-operating revenues and capital funding came in at \$31,331,381. The June month end FRC is 2.11%. Lastly, he displayed the sales tax update for May in which \$3,458,737 was received. At this time, Mr. Saldaña answered questions and took any feedback from the board.

#### c) August 2024 Procurement Update

Mr. Saldaña presented the item noting that the item aligns with the Board Priority of Public Image & Transparency. He discussed the current procurements. These include CNG Fueling Station Maintenance Services for an estimated cost of \$1,781,939. Heavy Duty Vehicle Filters for an estimated cost of \$400,000. Bear Lane Lower Roof Replacement for an estimated cost of \$373,163. Financial Auditing Services for an estimated amount of \$375,000. Texas Ultra Low Sulfur Emission Diesel Fuel Supply for an estimated cost of \$720,000. The current procurements total \$3,650,102. The future procurements were displayed next and included: Rebuilt Transmission Supply, Generator for Bear Lane, VA Clinic Bus Pull-In and Internal/External Bus Engine Parts. These future procurements total \$1,336,610. Next, the four-month outlook under the CEO signature authority was displayed and discussed next. All these items are \$50,000 or less. The items totaled \$99,886.

#### d) June 2024 Operations Update

Mr. Gordon Robinson, Managing Director of Operations, noted the board priority for this item is Public Image and Transparency. He provided the highlights for the month of June 2024 vs. June 2023. The Passenger Trips were up 6.3%, the Revenue Service Hours were up 16.6% and the Revenue Service Miles were up 3.7%. He displayed the RTA System Monthly Ridership Trends and the System-Wide Monthly Ridership by Mode. He noted year-to-date, the system overall was up 6.3%. He displayed the 2024 1st and 2nd Quarter Cost per passenger by service mode. Next, he discussed the fixed route bus on-time performance and reported no issues. He presented the list of the current and upcoming projects impacting fixed route services. The B-Line service passengers per hour came in at 2.44 for the month of June. He discussed the Fixed route customer assistance and B-Line customer assistance forms. The miles between road calls and the large bus fleet exceeded the standards. He answered any questions the board had at this time.

#### **CEO Report**

Mr. Majchszak presented the report and went over the operation and project updates. He announced on July 15<sup>th</sup>, CCRTA implemented service improvements for a number of routes. The SMART Grant was submitted on July 12<sup>th</sup>. He went over meeting highlights for the month including Board and staff visiting the Gillig Manufacturing Site in Livermore, CA and the APTA Board Seminars in San Jose, CA. CCRTA hosted the United Corpus Christi Chamber's special Texas Windstorm Association (TWIA) press conference. CCRTA hosted Visit Corpus Christi Staff Meeting. Community support events and participation were displayed. The upcoming events calendar was displayed. All were invited to attend the CCRTA Human Trafficking Summit on August 15<sup>th</sup>.

#### Reports from Board Chair and Board Members

At this Chair Granado noted the Gillig facility was impressive and encouraged Board Members to visit in the future. Several board members thanked staff for the reports and gave congratulations on awards. Director Salazar asked about the crosswalk at the Port Ayers Transfer Station and noted it needs attention.

#### Adjournment

There being no further review of items,	the meeting was adjourned at 10:06 a.m.
Submitted by: Marisa Montiel	Lynn Allison, Board Secretary

#### Board of Directors Meeting Memo

September 11, 2024

**Subject:** Award a Contract to Grainger, Inc., for the Replacement of an M20 Tennant Large Sweeper Scrubber

#### **Background**

The CCRTA Facilities Department currently has an M20 Tennant Large Sweeper Scrubber that has reached its useful life and is no longer working. The sweeper scrubber is used in CCRTA's bus parking lot to remove oil spills. Per the Texas Commission on Environmental Quality (TCEQ), any oil runoff into the City's water system violates the regulations and can lead to fines.

#### **Identified Need**

The existing large sweeper scrubber has reached its ten-year useful life and needs replacement.

#### **Analysis**

The proposed vendor is Grainger, Inc., which is on TXMAS a buyboard agency, and has a bid of \$79,999. Two other companies were contacted to acquire additional pricing as a comparison to the TXMAS price. However, Grainger, Inc., was the lowest bidder. The two other companies contacted were Jordan Power, headquartered in Ohio, and PowerBoss, headquartered in Illinois. The table below displays the bid information.

Company Name	Cost
Grainger, Inc.	\$79,999.00
Jordan Power	\$80,920.80
Power Boss	\$81,235.71

Grainger was established in 1927 in Chicago, Illinois. In 1967, it became a publicly traded company with 251 offices in the United States.

CCRTA conducts business regularly with Grainer and is satisfied with its customer service support and the products purchased from it. The company has a local office in Corpus Christi, TX.

Tennant, the manufacturer, will provide technical and warranty support.

#### Financial Impact

The estimated amount in the 2024 Capital Project Budget is \$80,215, and the cost is \$79,999. This project is funded with local funds.

#### **Board Priority**

This item aligns with the Board Priority – Facilities and Public Image.

#### **Disadvantaged Business Enterprise**

This project is funded with local funds and does not have a DBE goal.

#### Recommendation

Staff requests the Board of Directors authorize the Chief Executive Officer (CEO) or Designee to award a contract to Grainer, Inc. for the Replacement of an M20 Tennant Large Sweeper Scrubber for \$79,999.00.

Respectfully Submitted,

Submitted &

Sharon Montez

#### INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Corpus Christi Regional Transportation Authority Employees Defined Benefit Plan and Trust Corpus Christi, Texas

#### Opinion

We have audited the accompanying financial statements of the RTA Employees Defined Benefit Plan and Trust (the Plan), which comprise the statements of fiduciary net position as of December 31, 2023 and 2022, and the related statements of changes in fiduciary net position for the years then ended, and the related notes to the financial statements, which collectively compromise the Plan's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Plan as of December 31, 2023 and 2022, and the respective changes in financial position for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing
  an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements.

We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Corpus Christi, Texas August 16, 2024

Carr, Riggs & Chyram, L.L.C.

# RTA Employees Defined Benefit Plan and Trust Management's Discussion and Analysis

The Management's Discussion and Analysis ("MDA") on the financial performance of RTA Employees Defined Benefit Plan and Trust (the "Plan") provides an overview of the Plan's financial activities for the fiscal year ended December 31, 2023. Please read this section in conjunction with the financial statements, which begin on page 6.

#### FINANCIAL HIGHLIGHTS

The following highlights are explained in greater detail later in this discussion.

#### Financial Highlights for the Year Ended December 31, 2023

- The fiduciary net position held in trust for the Plan increased by \$5,080,184 during the 2023 fiscal year and totaled \$47,617,627 as of December 31, 2023.
- Retirement benefits paid during 2023 increased \$166,539 to total \$2,581,633.
- Total Contributions to the Plan increased \$570,464 during 2023 to total \$1,952,572.
- Net appreciation in the fair market value of investments totaled \$5,472,576 representing an increase in the fair market value of investments during 2023 while in the prior year a depreciation in the fair market value of investments of \$7,739,812 was experienced which represented a decrease in the fair market value of investments.
- Administrative expenses increased \$3,085 to total \$128,262.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

The Plan's basic financial statements include the following:

- 1. Statements of fiduciary net position,
- 2. Statements of changes in fiduciary net position, and
- 3. Notes to the financial statements.

The statement of fiduciary net position reports the Plan's assets, liabilities, and resultant net position restricted for pension benefits. It discloses the financial position of the Plan as of December 31, 2023.

The statement of changes in fiduciary net position reports the results of the Plan's operations during the year disclosing the additions to and deductions from the net position. It supports the change that has occurred to the prior year's net position value on the statements of fiduciary net position.

The notes to the financial statements provide additional information and insight that are essential to gaining a full understanding of the data provided in the statements of fiduciary net position and statements of changes in the fiduciary net position. The notes to the financial statements are followed by required supplementary information that further explains and supports the information within the financial statements.

For 2024, the recommended employer contribution is 17.13% of total annual payroll, 1.64% more than the 2023 recommended contribution of 15.49%.

# RTA Employees Defined Benefit Plan and Trust Management's Discussion and Analysis

#### **FINANCIAL ANALYSIS**

The fiduciary net position held in trust for the Plan increased by \$5,080,184 during the 2023 fiscal year and totaled \$47,617,627 as of December 31, 2023. The increase is attributed primarily to the \$5,472,576 of net appreciation in the fair value of plan investments in 2023. The remaining change in net position is due to benefit payments of \$2,581,633 and administrative expenses of \$128,262 that were partially offset by employer contributions of \$1,952,572 and interest and dividend income of \$348,651.

Fiduciary net position		
Beginning of year	42,537,443	51,096,163
End of year	\$ 47,617,627	\$ 42,537,443

#### Note 1: DESCRIPTION OF THE PLAN

The following description of the RTA Employees Defined Benefit Plan and Trust (the Plan) provides only general information. Refer to the Plan document for a more complete description of the Plan's provisions.

#### General

The Plan is a single-employer defined benefit pension plan administered by the Corpus Christi Regional Transportation Authority (the Authority) and established upon the applicable sections of the Internal Revenue Code. The Authority Board may periodically amend the Plan document. The current Plan provisions were established by a Plan and Trust agreement adopted by the Board of Directors in July 1986, and amended in July 1994, February 2002, November 2010, December 2011, December 2012, and January 2015.

Plan assets are held and managed by Principal Financial Group, the trustee or custodian and the qualified institution for the Plan, which invests contributions and Plan earnings, makes investment transactions as directed by the Authority Board and provides certain recordkeeping services. The Trustee carries out an investment policy established by the Authority Board consistent with purposes of the Plan and all applicable laws. The Plan has engaged third parties to provide actuarial services, consulting services, investment services and to assist with certain administrative functions of the Plan.

#### **Eligibility Requirements**

All employees shall be eligible to participate in the Plan on the date of the commencement of a full-time employment or re-employment. For purposes of this section, a full-time employee shall be defined as an employee who receives compensation from the employer on the basis on an average of at least 40 hours of employment per week. Once an employee has become a participant, he will continue to be a participant as long as he continues to be an employee without a break in service and thereafter as long as he or his beneficiary retains any right to benefits under the Plan.

#### **Funding Policy**

The employer shall establish a funding policy and method consistent with the Plan objectives in order that the long-range and short-range financial needs of the Plan may be determined and communicated to the Board.

#### **Contributions**

The Authority shall contribute to the fund from time-to-time amounts based upon the recommendations of the Plan's actuary, in order to fund the costs of the Plan on an acceptable basis. All employer contributions when made to fund and all property and funds of the fund, including income from investments and from all other sources, shall be retained for the exclusive benefit of participants and their beneficiaries, and shall be used to pay retirement income provided hereunder or to pay expenses of administration of the Plan and the fund.

During the years ended December 31, 2023 and 2022, the Authority made contributions of \$1,952,572 and \$1,382,108, respectively.

No contributions shall be required of or permitted by any participants under this plan.

#### Note 1: DESCRIPTION OF THE PLAN (CONTINUED)

#### **Participant Accounts**

Each employee will automatically become a participant upon meeting eligibility requirements. Once an employee has become a participant, the employee will continue to be a participant throughout their employment, without a break in service, and thereafter as long as the employee or the employee beneficiary retains any right to benefits under the Plan.

#### Vesting

Vesting begins at three years of service with full vesting at seven years. Employees who retire on or after age 62 are entitled to an annual retirement benefit equal to 2% of their final average compensation multiplied by their number of years of service for the Authority. Reduced retirement benefits are available at age 55 with ten years of service. In January 2015, the Plan was amended to allow those eligible for early retirement during a specific window without incurring the normal reduction in benefits. The Plan is not indexed for inflation. As of December 31, 2023 and 2022, there were 662 and 639 participants in the Plan, respectively, as follows:

	2023	2022
Active employees	232	218
Deferred vested	189	195
Retired and beneficiary	241	226
Total participants	662	639

#### Benefits

Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Administration costs are paid by the Plan.

#### **Pension Benefits**

Plan participants are eligible for their pension benefit after terminating employment with vested rights. Participants are eligible for normal retirement on his normal retirement date (first day of the calendar month immediately following the date he attains age 62). A participant who has both attained his 55<sup>th</sup> birthday and has completed at least ten (10) years of service may retire at any time by giving at least 120 days prior written notice to the employer, but at a benefit reduced by 5% for each year preceding his normal retirement date. Participants should refer to the Plan Document for a more complete description of the Plan reduction factors. Normal retirement benefits shall be an amount equal to 2% of his final average compensation multiplied by his years of service (converted to a monthly retirement benefit by dividing by twelve).

#### **Death and Disability Benefits**

If the employment of a participant is terminated by reason of his death prior to the completion of three (3) years of service, no death benefits shall be payable under the Plan. If the employment of a participant is terminated by reason of his death, while in the employment of the Authority after the completion of three (3) years of service or after having terminated with at least three (3) years of service, then a death benefit shall be payable to the participant's surviving spouse equal to the "Preretirement Survivor Annuity".

#### Note 1: DESCRIPTION OF THE PLAN (CONTINUED)

#### Death and Disability Benefits (Continued)

The "Pre-retirement Survivor's Annuity" means a survivor annuity for the life of the deceased participant's spouse which provides payments to the surviving spouse that are equal to the amounts that would have been paid to the surviving spouse (details provided in Plan Document). If the participant does not have a surviving spouse, no death benefits shall be payable.

Employees determined to be disabled under terms of the Authority's long-term disability program as of June 1, 1999 shall be entitled to benefits under this Plan to the extent the Plan provisions in place on June 1, 1999 provided for such benefits.

#### Plan Termination

The Authority has the right under the Plan to discontinue its contributions at any time and to terminate the Plan.

#### **Tax Qualifications**

The Plan is a tax qualified plan under IRS Code Section 401(a).

#### **Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

#### **Basis of Accounting**

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The significant accounting policies followed in the preparation of these financial statements are summarized below. These policies conform to the accounting principles generally accepted in the United States of America (GAAP) for local governmental units as prescribed in the statements issued by the Governmental Accounting Standards Board (GASB) and other authoritative sources.

#### **Use of Estimates**

The preparation U.S GAAP financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The assets of the Plan are invested in various fixed income, equity and short-term money market funds managed by a trustee. The Plan's policy in regard to the allocation of invested assets is established and may be amended by the Plan. Investments are reported at their fair market value as determined by the trustee. Investments in mutual funds are valued based on most recent quoted market prices.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis as earned. Dividends are recorded on the ex-dividend date. Fair value changes are recorded as investment income or loss.

#### Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Investment Valuation and Income Recognition**

Net appreciation (depreciation) in the fair value of investments includes realized gains or losses and unrealized appreciation or depreciation on investments bought and sold as well as held during the year. Gains and losses on the sale of investments in registered investment company funds are computed using the weighted average cost method.

The Plan's investments are stated at market value, unless otherwise indicated. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further information and related disclosures regarding the Plan's investments.

#### **Payment of Benefits**

Benefit payments to participants are recorded upon distribution.

#### **Administrative Expenses**

The employer may pay all expenses incurred in the administration of the Plan, including expenses and fees of the Trustee, but it shall not be obligated to do so; except that any such expenses and fees not paid by the employer shall be paid from the Plan. All expenses not paid by the employer and all other proper charges and disbursements of the Trustee, including taxes of any kind which may be levied or assessed under existing or future laws upon or in respect to the Fund or the Trust created hereby, shall be paid by the Trustee out of, and shall constitute a first charge upon, the Fund. In addition, certain investment related expenses are included in the net appreciation of fair value of investments presented in the accompanying Statements of Changes in Fiduciary Net Position.

#### Risk and Uncertainties

The Plan invests in various types of investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that these changes could materially affect the amounts reported in the Plan's financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

#### Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued, August 16, 2024, and determined there were no events that occurred that require disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.

#### **Note 3: CHANGES OF ASSUMPTIONS**

During the year ended December 31, 2023, the assumed interest (or discount) rate was decreased from 7.00% to 6.75% per annum. During the year ended December 31, 2022, the assumed interest (or discount) rate was decreased from 7.10% to 7.00% per annum. During the years ended December 31, 2023 and 2022, there were no changes in the mortality basis or mortality rates.

#### **Note 4: INVESTMENTS**

Investments at December 31, 2023 and 2022 consist of the following mutual funds, which are stated at fair value:

#### Fair Value Measurements

GASB 72, Fair Value Measurements and Application, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under GASB 72 are described as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

#### Note 4: INVESTMENTS (CONTINUED)

Level 2: Significant other observable inputs other than Level 1 prices, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs, other than quoted prices, that are:
  - observable; or
  - can be corroborated by observable market data.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2023 and 2022.

Money Market Fund: Value is stated at cost, which approximates fair value.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

#### Note 4: INVESTMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023:

	Quoted Prices in Active			Significant Other	
	N	larkets for		Observable	
	Identical Assets			Inputs	
Description		Level 1		Level 2	Total
December 31, 2023					
Mutual funds	\$	9,753,290	\$		\$ 9,753,290
Pooled, common, and collective funds		-		37,183,993	37,183,993
Total investments at fair value	\$	9,753,290	\$	37,183,993	\$ 46,937,283

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022:

	Quoted Prices in Active			Significant Other	
	N	1arkets for		Observable	
	Ident	ical Assets		Inputs	
Description		Level 1		Level 2	Total
December 31, 2022					
Mutual funds	\$	8,497,997	\$	=	\$ 8,497,997
Pooled, common, and collective funds		_		33,189,215	33,189,215
					_
Total investments at fair value	\$	8,497,997	\$	33,189,215	\$ 41,687,212

#### Interest rate risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. As market interest rated rise, the fair value of an investment held decreases. The Plan's current Investment Policy does not specifically address interest rate risk. The Plan does, however, monitor exposure using the "Segmented Time Distribution" method.

The following is a list of fixed income investments and related maturity schedule (in years) as of December 31, 2023 and 2022. The Maturity schedule is based on the average maturity of the fund as noted by the fund manager.

#### Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the Plan. The Plan's investment policy addresses general provisions relating to common stocks where limits are established on percentage of investing in a particular stock. The policy also stresses high quality and reasonable diversification of fixed income investments with portfolio holdings concentrated in securities rated A or better, limiting 10% of holdings invested in issues rated below BBB, only with management approval.

#### **Custodial Credit Risk**

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by counterparty, or counterparty's trust department or agent but not in the government's name. This is the risk that in the event of bank or investment failure, the Plan's deposits or investments may not be returned. The Plan's investment policy does not specifically address custodial credit risk; however, all of Defined Benefits' deposits and investments are in the name of the Plan and Trust. As of December 31, 2023 and 2022, the Plan's deposits or investments exposed to custodial credit risk are minimal.

#### Concentration of Credit Risk

This is the risk of investing predominately in any one type of investment or entity. The Plan recognizes over-concentration of assets by market sector or maturity as a risk to the portfolio.

#### Note 4: INVESTMENTS (CONTINUED)

#### Concentration of Credit Risk (Continued)

The Plan's adopted investment policy established diversification as a major objective of the investment program and sets diversification limits for all authorized investment types which are monitored on a monthly basis. Per the policy, no equity holding may exceed 5% of the outstanding voting shares of the issuing corporation. Likewise, regarding fixed income investments, not more than 5% of the market value of the total portfolio may be invested in the debt securities of any one company. As of December 31, 2023 and 2022, there were no exceptions to these policy limits.

The following is the Plan's adopted asset allocation ranges as of December 31, 2023:

	Target %	Maximum %	Minimum %	Benchmark
Cash	1%	3%	0%	Treasury Bill Equivalent
Equities	61%	70%	50%	S & P 500
Fixed Income	38%	50%	27%	Barclays Capital Aggregate

#### Rate of Return

The portfolio is expected to produce a compounded annual absolute return over a market cycle of at least 6.75%. For the year ended December 31, 2023 and 2022, the annual dollar-weighted rate of return (loss) on the Plan's investments, net of pension plan investment expense, was 13.57 and (14.50) percent, respectively. The dollar-weighted rate of return demonstrates that the present value of future cash flows plus the final market value of investments equal the current market price of investment.

The Plan's fixed income investments are rated based on the average quality of the fixed income investments as noted below:

		Principal				Principal

#### **Note 5: NET PENSION LIABILITY**

The Net Pension Liability is measured as the Total Pension Liability, less the amount of the Plan's Fiduciary Net Position. In actuarial terms, this will be the accrued liability less the market value of assets. The components of the Plan's Net Pension Liability as of December 31, 2023 and 2022 are as follows:

As of December 31,		2022		
Total pension liability Plan fiduciary net position	\$	59,043,802 47,617,627	\$	53,564,918 42,537,443
Net pension liability	\$	11,426,175	\$	11,027,475
Plan fiduciary net position as a percentage of the total pension liability		80.65%		79.41%

#### **Actuarial Assumptions**

The total pension liability was determined by an actuarial valuation as of December 31, 2023, using the following actuarial assumptions, applied to all periods included in the measurement.

Actuarial cost method	Entry age normal
Inflation	2.25% per annum, compounded annually
Salary increases	3.50% per annum, compounded annually
Mortality	RP-2014 Blue Collar Generational Mortality table
	adjusted to 2006 and projected using Scale MP-2021

#### Note 5: NET PENSION LIABILITY (CONTINUED)

#### Long-Term Expected Rate of Plan Returns

The long-term expected rate of return on Plan investments was determined considering historical performance and using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of Plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of December 31, 2023 are summarized in the following table:

Long-term Expected Real

	-	
Asset Class	Target Allocation	Rate of Return
Domestic Equity - Large Cap	20%	5.55%
Domestic Equity - Mid Cap	10%	6.45%
Domestic Equity - Small Cap	10%	6.95%
International Equity	15%	5.85%
Fixed Income	38%	2.15%
Domestic Real Estate	2.5%	8.45%
Commodities	2.5%	4.75%
Cash	2%	1.35%

#### **Discount Rate**

The discount rate used to measure the total pension liability was 6.75%. Pursuant to Paragraph 43 of GASB No. 67, an alternative analysis was performed to compare the Plan's net fiduciary position to projected benefit payments.

- 1. The normal cost represents the annual cost of providing an additional year of pension benefits for active participants.
- 2. The unfunded actuarial accrued liability represents the accumulated deficiency of the total cost of benefit payments which have already been earned over the current assets held by the Plan's trust.
- 3. The Authority's contribution policy is to make an annual payment equal to the normal cost plus the amortization payment of the unfunded actuarial accrued liability. The amortization payment is calculated as a level dollar amount over a period of 15 years from January 1, 2009.
- 4. A review of actual contributions over the past five years shows that the Authority has made sufficient contributions to meet its funding policy.

On the basis of the above, the projected cash flows will be sufficient to provide the benefit payments to the Plan participants. Thus, the discount rate is equal to the long-term expected rate of return of 6.75%.

#### Note 5: NET PENSION LIABILITY (CONTINUED)

#### Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan, calculated using the discount rate of 6.75%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (5.75%) or 1-percentage point higher (7.75%) than the current rate:

	1% Decrease	<b>Current Discount</b>	1% Increase
	5. <b>7</b> 5%	Rate 6.75%	7.75%
Net pension liability	\$ 18,445,638	\$ 11,426,175	\$ 5,560,278

#### **Note 6: PLAN TERMINATION**

Although it has not expressed any intention to do so, the Authority expressly reserves the right under the Plan to terminate or partially terminate the Plan and its contributions thereunder at any time subject to the provisions set forth in section 7 of the Plan and by giving written notice of such termination or discontinuation of its contribution to the Trustee. In the event the Plan terminates, or partially terminates, the present value of the benefits shall be determined as of the Plan termination date and the assets of the Trust Fund shall be allocated to the extent they shall be sufficient, after providing for expenses and administration, in the following order:

#### 1. First

- a. To benefits which are being paid as of three years prior to the date of termination of the Plan, with the amount to be allocated to such benefit, based on the provisions of the Plan in effect during the five-year period immediately preceding the date of termination under which such benefit would be least.
- b. To benefits which would have been paid as of three years prior to the date of termination (i) if the Participant had retired prior to the three-year period and (ii) if his benefits had commenced (in the normal form of annuity under the Plan) as of the beginning of such three-year period, with the amount to be allocated to each such benefit determined under the provisions of the Plan in effect during the five-year period preceding the date of termination under which the benefit would be the least.
- 2. Second, to all other vested Accrued Benefits as determined under Section 3.05.
- 3. Third, to all other Accrued Benefits attributable to non-vested participants.

For purposes of 1.b.i above, the lowest benefit in pay status during a three-year period shall be considered the benefit in pay status for such period.

If the assets available for allocation to any class specified above are insufficient to satisfy in full the benefits of all individuals within that class, the assets shall be allocated pro-rata among such individuals on the basis of present value (as of the termination date) of their respective benefits.

#### **Note 7: TAX STATUS**

On April 27, 2017 the Internal Revenue Service (IRS) issued a favorable determination letter stating that the Plan was in compliance with Section 1.401-1(b)(3) of the Code of Federal Regulations.

#### RTA Employees Defined Benefit Plan and Trust Notes to Required Supplementary Information

#### Factors that significantly affect trends in amounts reported

For the periods presented, there were no changes of benefit terms or changes in the size or composition of the population covered by the benefit terms which significantly affect trends in the amounts reported. The primary assumption change was the lowering of the single discount rate from 7.00% to 6.75%. For the years ended December 31, 2023 and 2022 there were no other changes in assumptions.

#### Method and assumptions used in calculations of actuarially determined contributions

The following actuarially determined methods and assumptions were used to determine contribution rates reported for the year ended December 31, 2023:

Age	Retirement Rates
55-61	20%
62	35%
63-64	15%
65	25%
66-67	20%
68-69	50%
70	100%

### Q3 2024 key themes

- A U.S economic moderation, but cyclical upturns elsewhere.
- U.S. growth is softening as lower-income households feel the bite of higher interest rates. Other developed markets are now enjoying cyclical upturns, yet the limited nature of their recoveries suggests that U.S. economic dominance still
- The inflation scare of 1024 is now waning, but a few more months of soft inflation data are required to validate that disinflation is proceeding as necessary. Without a sharp labor market slowdown, global inflation will unlikely reach Global inflation tentatively resumes its last mile of deceleration. central bank targets until late 2025, if not 2026.
- A first Fed rate cut could occur in September, provided inflation continues to decelerate and economic activity does not reaccelerate. Other central banks have started easing, but their next moves will fall back in line with the Fed's actions. Central bank cutting cycles are set to be slow and shallow.
- ensuring that the set-up for U.S. equities remains reasonably constructive. Yet the concentration of gains does pose a That same economic strength that has delayed Fed cuts should support a positive backdrop for corporate earnings, Equity markets can eke out positive gains, provided the economic backdrop remains solid.
- Macro resilience should ensure a gradual rise in defaults rather than a sudden spike, meaning credit spreads are unlikely Elevated fixed income yields continue drawing investor interest.

to widen significantly from their current levels. Fixed income yields are markedly higher than a few years ago

Assets in money market funds have ballooned to a record \$6 trillion, with investors attracted by elevated yields. Now, With potential gains across asset classes, staying in cash is the leading risk. this cash represents a potential tailwind to risk assets.

As of June 30, 2024

### Equities returns were mixed for the quarter with U.S. large cap growth outperforming the broader market.

Fixed income markets were also mixed for the quarter with high quality long-term bonds delivering negative returns.

determined by OCIO Solutions based on index assignments by Morningstar. Returns for periods of less than one year are not annualized. Past performance is not a reliable indicator of future performance and Category performance and percentile rankings are calculated by Morningstar, are reflective of the peer group assigned by Morningstar, and are shown for comparison purposes. Benchmark indexes shown are should not be relied upon to make investment decisions. It is not possible to invest directly in an index. See Important Information for further details.

Alpha - The difference between an investment's actual returns and its expected performance, given its level of risk (as measured by beta).

Beta - An investment's sensitivity to market movements.

R-Squared - Ranges from 0 to 100 and reveals how closely an investment's returns track those of a benchmark index.

Standard Deviation - Measures how much an investment's returns are likely to fluctuate.

Sharpe Ratio - Measures how an investment balances risks and rewards. The higher the Sharpe ratio, the better the investment's historical risk-adjusted performance.

Excess Return - The difference between a manager's return and the return of an external standard such as a passive index.

Tracking Error - The standard deviation or volatility of excess returns.

Percentile rankings are based on total returns in accordance with the appropriate Morningstar peer group. Returns shown for periods of less than one year are not annualized. All returns displayed here are after Total Investment Expense of the investment option. Investment options are subject to investment risk. Shares or unit values will fluctuate and investments, when redeemed, may be worth more or less than their original cost.

Before investing, carefully consider the investment option objectives, risks, charges, and expenses. Contact a financial professional or visit principal.com for a prospectus or, if available, a summary prospectus containing this and other information. Please read it carefully before investing.

This report is prepared solely for existing client use and not for any other purpose

Past performance is not indicative of future performance or a guarantee of future return. Investing involves risk, including the potential loss of some or all invested capital, and may yield results that are significantly different from that shown herein.

The information in this report should not be considered investment, legal, accounting, or tax advice. Appropriate counsel, financial professionals or other advisors should be consulted for advice on matters pertaining to investment, legal, accounting, or tax obligations and requirements. The information in this report has been derived from sources believed to be accurate. Information derived from third-party sources, although believed to be reliable, has not been independently verified

No legal liability or obligation shall arise by reason of the use of this report, or any errors or omissions contained herein.

The information in this report speaks as of the applicable date thereof, or the date as may be specified in the respective materials herein. Principal has no obligation to update any of the information provided herein.

Index and/or other benchmarks are referred to for comparative purposes only; they are not necessarily intended to parallel the risk or investment approach of the portfolios included. This report may contain "forward-looking" information that is not purely historical in nature. Such forward-looking information may include, among other representation, or warranty being made as to the accuracy of any Projections. Nothing contained herein may be relied upon as a guarantee, promise, things, projections and forecasts regarding potential future events that may occur (collectively, "Projections"). There is no assurance, guarantee, forecast, or a representation as to future performance.

Investing involves risk, including possible loss of principal.

International and global investing involves greater risks such as currently fluctuations, political/social instability, and differing accounting standards. These Asset allocation and diversification does not ensure a profit or protect against a loss. Equity investment options involve greater risk, including heightened volatility, than fixed-income investment options. Fixed-income investments are subject to interest risk; as interest rates rise their value will decline. risks are magnified in emerging markets.

Principal Asset Management<sup>sM</sup> is a trade name of Principal Global Investors, LLC. OCIO Solutions and Principal Asset Allocation are investment teams within Principal Global Investors. Principal Global Investors leads global asset management at Principal

name Principal® Custody Solutions, a division of Principal Bank. Principal Trust Company is a trade name of Delaware Charter Guarantee & Trust Company Custody and trust services are provided by Principal Bank®, Member FDIC, and/or Principal Trust Company®. Risk Contributors Risk Offset

#### Glossary

Asset Duration – the effective duration of the total assets, including asset classes that aren't directly sensitive to changes in interest rates.

Base Scenario (Risk Analysis slide) – the current surplus/(deficit) position, defined as assets minus liabilities. A surplus position is equivalent to a funded status of greater than 100% and a deficit position is equivalent to a funded status less than 100%

**Benefit Payments** – the amount of cash paid in participant benefits between two valuation points.

**Credit Spread** – the difference in yield between two bonds of similar maturity but different credit guality.

Credit Spread, 1% decrease – the effect on the funded status with a 1% decrease, or narrowing, of the credit spread. The resulting lower risk of bond issuer default and higher bond prices will tend to increase the value of assets and liabilities, where other factors remain egual. Credit Spread, 1% increase – the effect on the funded status with a 1% increase, or widening, of the credit spread. The resulting increased risk of bond issuer default and credit downgrades will tend to decrease the value of assets and liabilities, where other factors remain equal.

**Discount Rate** – used to discount future benefit cash flows to calculate their present value. The discount rate may represent the expected return on the assets, or a rate derived from yields on high-quality bonds or current market Treasury rates.

Equity Prices, 20% decrease – the percentage change to the value of assets by a 20% decrease in the index proxies in each equity asset class in the portfolio.

Fixed Income Duration – the effective duration of the fixed income portion of the total assets, i.e., only the assets that are directly sensitive to changes in interest rates. Funded Status – represents the ratio of assets to liabilities, which measures how well an account is funded. A funding level of less than 100% is underfunded, with a deficit of assets to liabilities. Conversely, a funding level of greater than 100% implies the account is running a surplus.

**Inflation** – the value attributed to movement in assets and liabilities due to changes in inflation expectations.

**Interest Rates** – the value attributed to movement in assets and liabilities due to a change in risk-free interest rates, i.e., Treasury rates.

Interest Rate Hedge Ratio – the measure of how similar the response to interest rate movements is for assets vs. liabilities. A ratio near 100% would mean that the portfolio is well hedged.

Interest Rate, 1% decrease - the effect on asset and liability values due to decreasing the interest rate by 1%. Reducing the rate will increase the present value of assets and liabilities, where other factors remain equal Interest Rate, 1% increase – the effect on asset and liability values due to increasing the interest rate by 1%. Increasing the rate will reduce the present value of assets and liabilities, where other factors remain equal

### Glossary

**Liabilities** – represents the amount of money that needs to be set aside now to meet future benefit obligations. The liability value is determined by discounting the expected future cash flows at the selected discount rate.

duration is 12, every 1% of interest rate movement up or down causes an approximate 12% decrease or increase, respectively, to the liabilities. **Liability Duration** – represents the percentage change to the liabilities for each 1% change to the interest rate. For example, if the liability This is an effective duration measure.

MA Scenarios (Risk Analysis slide) – the stochastic scenarios provided on a monthly basis via Moody's Analytics Scenario Generator

random inputs to multiple variables impacts a portfolio. This is a hypothetical, forward looking simulation and could differ substantially from Monte Carlo simulation – this method approximates the probability of possible outcomes of 10,000 or more trial simulations based on how actual future performance. Results many vary with each use and over time.

participant updates for liability valuations and significant trading within the asset portfolio. In practice this is the balancing item to get from the Other (Quarterly Attribution slides) - the value attributed to movement in the asset and liability valuations due to other factors, such as value at the start of the movement period to the value at the end.

valuation, as the fixed period over which future payments are discounted will naturally decrease over time. This is known as the effect of passage Passage of Time (Quarterly Attribution slides) – the amount by which assets and liabilities will have increased or decreased since the previous of time, i.e., there are fewer time periods over which to discount to present value.

Return Seeking Factors – represents an aggregation of market movements of any asset classes that aren't directly sensitive to changes in interest rates, inflation or credit (i.e., equities, alternatives and real estate)

95% confidence interval, there is a one-in-twenty chance that the funded status position could deteriorate by the VaR amount, or more, over the Funded Status Value at Risk (VaR) – the amount of potential loss to the funded status position over the course of one year. For instance, at a one-year time horizon. This is a statistical representation of a worst-case outcome, produced using Monte Carlo simulation.

### Board of Directors Meeting Memo

September 11, 2024

Subject: July 2024 Financial Report

Overview: July Operating Budget ended the month with revenues coming in less than expenses by \$241,460, as total Operating Expenses came in at \$4,426,346 and Operating Revenues at \$4,184,886. In comparison to the budget, Operating Revenues of \$4,184,886 came in less than the \$4,247,247 budget by \$62,361 and departmental spending of \$4,426,346 came in more than the \$4,018,204 budget by \$408,142. This shortfall trend will improve in the next few months when pending federal operating assistance grants are approved by FTA.

Passenger fares of \$72,235 reached 78.41%, lease revenue from tenants reached 97.74% while investment income exceeded budget expectations by 134.81% or \$58,738.

Year-to-date Operating Budget produced a deficit of \$600,815 as total revenues of \$27,378,895 reached 97.59% of baseline while expenses of \$27,979,710 finished at 98.65%. This deficit is expected to improve when the pending federal grants are awarded.

The CIP budget for the month resulted in expenditures exceeding revenues by \$5,082, with CIP program expenditures coming in at \$671,877 while funding sources came in at \$66,795 and include the transfer-in from the fund balance of \$491,820. The expenditures include \$496,902 of depreciation expense for the month. Funding sources include the budgeted transfer-in from the fund balance of \$491,820.

**Year-to-date** CIP total funding totaled \$8,747,432 while total expenditures finished at \$8,783,002 resulting in **expenditures** to exceed funding sources by \$35,570. Funding sources include the budgeted transfer-in from fund balance of \$3,442,743.

For the month, the overall performance results in an initial decrease of \$246,542 to the fund balance with a decrease of \$241,460 attributable to the operating budget, and a decrease of \$5,082 related to the CIP budget.

The overall performance for the **year-to-date** results in an initial decrease of **\$636,385** to the fund balance, with a decrease of **\$600,815** attributable to the operating budget, and a decrease of **\$35,570** related to the CIP budget.

When removing the transfer-in funding sources the decrease in fund balance totals \$4,079,128 of which \$600,815 is from the operating budget and \$3,478,312 is from CIP. *However, there is approximately \$3,911,000 in grant funds that will become available when the federal grants are awarded.* 

SUMMARY: Results from all Activities Compared to Budget

**Total Revenues and funding sources** for the month of **July** closed at **\$4,851,681**, of which **\$4,184,886** is attributable to the **Operating Budget (Table 4 and PPT Slides 3 and 4)** and **\$666,795** to the capital budget. The **\$666,795** from the capital budget consists of **\$174,975** from grant revenues while **\$491,820** comes from the unrestricted portion of the fund balance that was budgeted as a transfer in. The performance of the revenue categories from the Operating Budget is discussed as follows.

**Operating Revenues**, which include only resources generated from transit operations, **totaled \$114,569** or 14.92% less than forecasted **(Table 4.1) & (PPT Slide 5). Fare Revenues** ended the month at \$72,235, or 78.41% of the baseline expectation and include **\$8,146** from **Go-Pass Mobile App Pass Sales**. Fare Revenues are typically lower during the months of June through August, as service agreements with the college and university are not in force until the start of the new academic term (Fall 2024).

Meanwhile, commissions from both **Bus and Bench Advertising** ended the month at \$17,564 of which \$3,629 came from **Bus Bench Advertising commissions** while \$13,935 came from **On-Board Bus Advertising commissions**. The combined revenue was 98.84% of baseline.

Note that the commissions earned from Bench Advertising total \$5,443 of which \$3,629 is recognized as revenue and \$1,814 represents the City's one-third share of the bench advertising commission for the use of the City property.

**Other Operating Revenues** totaled \$24,770, or 100% of baseline, and is the proceeds from a refunded insurance policy from a prior fiscal period.

**Non-Operating Revenues,** which includes sales tax, investment income, lease income from tenants, and federal assistance grants totaled \$4,070,317 reaching 98.97% of the \$4,070,317 budget expectation, generating \$42,267 less than forecasted (Table 4.1).

The shortfall is the result of the preventive maintenance grant not yet awarded for 2024. This funding is expected to be available by the end of September. Meanwhile, the category was bolstered by the continued performance of the investment portfolio, which exceeded the baseline expectation by \$58,738, or 34.81%. Staples Street Center leases reached 97.74% of baseline, a difference of \$992, as the new tenant moved into the space during the month.

For clarification, please keep in mind that all revenues reported are **actual** revenues received or earned except for the sales tax revenue. The Sales Tax Revenue has been **estimated** since the amount will not be determined until payment is received on **September 13, 2024**. Out of the seven (7) sources included in this revenue category, 90.80% of total revenue came from the sales tax revenue estimate as indicated in the following table:

Line #	Revenue Source	Actual	%
1	Sales Tax Revenue Estimate	\$3,800,000	90.80%
2	Passenger Service	72,235	1.73%
3	SSC Lease Income	42,829	1.02%
4	Bus Advertising	17,564	0.42%
5	Investment Income	227,488	5.44%
6	Grant Assistance Revenue	-	0.00%
7	Other Revenue	24,770	0.59%
	Total (excluding capital)	\$4,184,886	100.00%

The **Investment Portfolio** closed the month of July 2024 with a market value of \$52,137,224, a decrease of \$508,568, from the balance at the end of June 2024 of \$52,645,793. The composition of the July portfolio market value includes \$18,844,818 in short-term securities consisting of \$9,338,738 in Commercial Paper and \$9,506,080 in Federal Agency Coupon Securities. In addition, \$30,358,635 was held in TexPool Prime and \$2,933,771 in bank accounts at Frost Bank. For the month of **July**, earned interest income was recorded at \$227,488.

TexPool Prime Rate is currently at 5.46% while locked rates for securities range from 4.67% - 5.62%.

At the beginning of 2024, it was expected that the federal funds rate would be reduced three times during the year, for a total reduction of 1.63%. As of the August meeting of the Federal Open Markets Committee, Fed Chair Powell indicated a shift in policy stance, leading to markets now anticipating a 100% chance of a 25 basis point cut to be announced at the September meeting of the Fed. Staff will continue to work with the Authority's investment advisor to extend maturities to maximize yields and minimize rate risks, while ensuring the necessary liquidity for daily operations and capital projects.

### This investment portfolio does not include any assets from pension plans but only assets from operations.

The **Sales Tax** allocation for July 2024 is **estimated** at **\$3,800,000** and is in line with the actual allocation received for July 2023. The estimate is necessary since allocations lag two months behind and will not be received until September 13, 2024.

The Sales Tax revenue payment of \$3,743,265 for June 2024 was received August 9, 2024, and was \$56,735, or 1.49% less than the \$3,800,000 July reported estimate. The June payment included the allocation from internet sales of \$41,678, an increase of \$5,895 or 16.47% from the prior month. RTA started receiving internet sales tax revenue in December 2019, and to date have received \$1,701,616. Retailers started collecting sales tax on internet sales on October 1, 2019.

The sales tax revenue over the last five years averages 71.13% of total income. In 2023, Sales Tax Revenue represented 70.27% of total revenues. Sales tax typically represents the largest component of CCRTA's total income, however there are several factors that can cause fluctuations from year to year. Although sales tax revenue is related to economic conditions, other factors such as the amount of revenues from other sources and capital improvement plans do come into play. During this reporting period sales tax represented 90.17% of total operating revenues. **Table 2** illustrates the sales tax revenue trend from the beginning of the year, while

**Table 2.1** illustrates the comparison between the sales tax received versus the sales tax budgeted.

### **Transparency Disclosure**

The sales tax revenue reported as 2024 Actual is higher than what is reported by the state comptroller's website for the months of January through May. The difference represents the \$27,374 that is deducted by the state comptroller each month as repayment of \$1,177,082 that occurred in December 2019 because of an audit. The repayment is over 43 months and as of May have completed all installments. This amount is added back to calculate the growth rate when compared to the same period last year.

### July 2024 Expenses

The results of all expenditure activities, including capital, are presented below. Overall, the total expenditures of \$5,098,223 came in \$408,142 over the anticipated baseline of \$4,690,081. Departmental expenses of \$4,121,540 came in \$441,486 over the \$3,680,054 anticipated baseline or 12.00%. Meanwhile, Street Improvement Program expense of \$287,294 is a fixed amount that represents one-twelve of the annual amount budgeted for all member cities, resulting in 100% of baseline. Debt service expense of \$17,510 represents the monthly amortization of debt issuance costs resulting from the 2019 bond refunding plus interest related to Subscription Liabilities (SBITAs).

Year to Date as of July 2024 Total Expenses & Capital Expenditures - Table 6.1

For the year to date, total expenditures including capital were \$36,762,712, coming in \$381,673 under the anticipated baseline of \$37,144,385. Departmental expenses of \$25,612,125 came in \$148,250 under the anticipated baseline of \$25,760,375 or 0.58%. Meanwhile, Street Improvement Program expense is a fixed amount that represents one-twelve of the annual amount budgeted for all member cities, resulting in 100% of baseline and as of July the year-to-date expense represents 58.33% of the annual budget. Debt service represents the monthly amortization of debt issuance costs plus current year interest on bonds, along with interest costs for SBITAs.

### **EXPENSES – REPORTED BY EXPENSE OBJECT CATEGORY**

The **Financial Accounting Standards Board (FASB)** requires expenses to be reported by object category which include expenses that can be traced back to a specific department and or activity. It excludes depreciation expenses, expenses associated with the Street Improvement Program, debt service expenses, and pass-through activities (Sub-recipients).

Accordingly, for the month of July 2024, total departmental operating expenses realized favorable variances against the baseline expectation from categories including Salaries & Wages, Services, Utilities, Insurance, Purchased Transportation, and Miscellaneous.

Meanwhile, unfavorable variance was identified with the categories of Benefits and Materials & Supplies.

**Benefits** reported a negative variance of 60.56%, or \$436,123. **Health insurance claims costs** continue to be high for the Authority. **For the year to date,** the category reports a negative variance of 9.19%, or \$463,038.

**Materials & Supplies** reported a negative variance of 24.15%, or \$67,660. The negative variance is due to the continued higher costs for maintenance of vehicles and facilities, and expenses related to special events such as the Port Ayers Transfer Station grand opening ceremony. The category maintains a negative variance of 8.02% or \$157,225 for the year to date.

June		699,035	3,119	702,154
July		566,539	3,989	570,528
	\$	2,795,737	\$ 54,725	\$ 2,850,463

<sup>\*</sup>Note – Stop loss reimbursements totaling \$15,253 were received in July 2024. The June financials reported \$343,576 in Stop Loss reimbursements which lowered the total claims from \$702,154 to \$358,578.

### Fare Recovery Ratio - Table 10

Description	07/	07/31/2024		Year to Date	
Fare Revenue or					
Passenger Revenue	\$	72,235	\$	638,556	
Operating Expenses		4,121,543		25,576,559	
Fare Recovery Ratio		1.75%		2.50%	
*Excluding Depreciation					

Note: Same period last year (July 2023) the FRR was 2.08%

The passenger fares are pledged revenues secured by the bond covenant associated with the construction of the Staples Street Center Building. The bond contract requires the Authority to establish and maintain rates and charges for facilities and services afforded by the CCRTA transit system to produce gross operating revenues in each fiscal year by anticipating sufficient passenger revenues to pay for maintenance and operating expenses and produce net operating revenues at least 1.10 times the annual debt service requirements. The debt service coverage ratio is a different ratio from the Fare Recovery Ratio. CCRTA has maintained since the inception of the bond covenant a coverage ratio of at least 1.10.

### July 2024 - Table 11

For the month of July, total Revenue exceeded Expenditures by \$88,597. For the year to date, total Expenditures exceeded Revenue by \$332,847. A greater detail of the financial results is explained in the accompanied Power Point presentation.

### **NET POSITION**

The Total Net Position at the end of the month was \$111,845,109, an increase of \$1,225,561 from December 2023 which closed at \$110,619,548.

The Total Net Position is made up of three (3) components: Net Investment in Capital Assets, Funds Restricted for the FTA's Interest, and Unrestricted which represents the residual amount of the net position that is available for spending.

Of the Total Net Position of \$111,845,109, the portion of the fund balance that is not restricted in accordance with GASB Concepts Statement No 4 is \$44,464,094, but only \$18,351,953 is available for spending due to the \$26,112,141 Board-designated reserves aimed at mitigating the fluctuations of sales tax revenue. As you can see from the fund balance breakdown below, 58.73% of the unrestricted portion is assigned by the Board to fund reserves that are earmarked to meet certain unexpected demands.

### **FUND BALANCE AS OF JULY 31, 2024:**

FUND BALANCE	
Net Invested in Capital Assets	\$ 66,805,706
Restricted for FTA Interest	575,308
Unrestricted	44,464,095
TOTAL FUND BALANCE	111,845,109
RESERVES	
Designated for Operating Reserve	10,878,633
Designated for Capital Reserve	11,855,307
Designated for Employee Benefits Reserve	1,478,201
Designated for Emergency/Disaster Reserve	1,900,000
Total Designated Reserves	26,112,141
Plus:	
Unrestricted	18,351,953
TOTAL DESIGNATED AND UNRESTRICTED	\$ 44,464,095

Board of Directors Meeting Memo

September 11, 2024

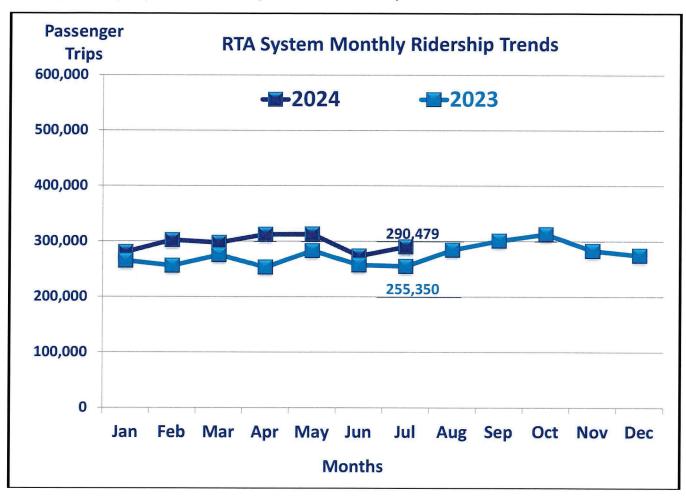

Subject: July 2024 Operations Report

The system-wide monthly operations performance report is included below for your information and review. This report contains monthly and Year-to-Date (YTD) operating statistics and performance measurement summaries containing ridership, performance metrics by service type, miles between road calls and customer service feedback.

### System-wide Ridership and Service Performance Results

July 2024 system-wide passenger trips totaled 290,479 which represents a 13.8% increase, compared to 255,350 passenger trips in July 2023 with 35,129 more trips provided this month. Ridership levels were impacted by tropical storm activity from Hurricane Beryl.

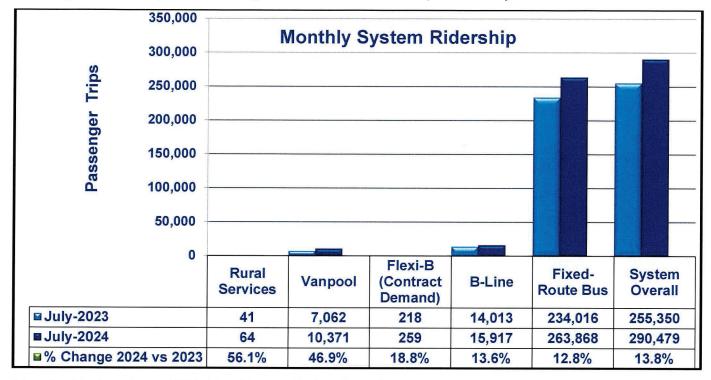

July 2024	July 2023	Variance
22 Weekdays	20 Weekdays	+2
4 Saturdays	5 Saturdays	-1
5 Sundays	6 Sundays	-1
31 Days	31 Days	-

The average retail price for unleaded gas in Corpus Christi was \$2.98 per gallon compared to \$3.10 per gallon in July 2023<sup>1</sup> which is a 3.8% decrease in the average cost per gallon. July rainfall was above average at 4.97 inches. In comparison, July 2023 recorded only 0.39 inches.<sup>2</sup> Historically, July average rainfall is 2.54 inches. The 93.9-degree average high temperature in July 2024 was above the average temperature of 93.7-degrees.

### Bus Routes and Bus Stops Impacted by City and TxDOT Construction Projects

- New Harbor Bridge (North Beach): Route 78 remains on a minor detour under U.S. HWY 181 in the inbound direction. (No stops impacted)
- Port Ave. Waterline Replacement Project began March 2022, undetermined completion date.
- Routes 21, 23 & 37 (2 stops impacted)
- Comanche St. (Carancahua-Alameda): Began early-2024.
- > Route 23 (2 stops may be impacted with TCP placement)
- Gollihar Rd. (Crosstown-Greenwood): Began April 24, 2023.
- > Routes 23 & 25 (13 stops closed for this two-phase project)
- McArdle Rd. (Carroll-Kostoryz): Project began Oct 30<sup>th</sup>, 2023.
   Route 19 (8 stops closed)
- Everhart Rd. (SPID-S. Staples): Project began September 2023.
- ➢ Route 32 (not detoured), Route 37 (detoured) (4 stops on Everhart now impacted, 2 closed on Alameda & 2 closed on S. Staples west of the Everhart Rd.).
- Bear Ln. (Fortune-Enterprize): Utility repair began June 10, 2024.
- ➤ Route 16 (1 New Food Bank bus stop temporarily closed & unserved)
- Matiana Ortiz (Robstown, TX): Road repair began July 29, 2024.
- ➤ Route 27 (no stops impacted)
- N. Tancahua (Leopard-Kinney): Utility replacement began February 5th, 2024.
- Routes 19 & 23 (3 stops closed)
- Alameda St. (Louisiana-Texan Trail): Work on project began Fall-2023.
- Routes 5 & 17 (12 of 19 total stops are currently impacted)
- Brownlee Blvd. (Morgan-Staples) To begin late-2024.
- Routes 5x & 17 (8 stops will be impacted)
- Upper/Mid./Lower Broadway: Project in design. (60%)
- Routes 6 & 76 (no stops impacted)
- Carroll Ln. (SH-358 to Holly) Project in design. (60%)
- Route 15 (4 stops may be impacted)
- Alameda St. (Everhart-Airline): Project in design. (90%)
- Route 5 (13 stops may be impacted)
- Alameda St. (Texan Trail-Doddridge): Project in design. (90%)
- Route 5 (11 stops may be impacted)
- Alameda St. (Del Mar-Louisiana): Utility work began Oct.-2023.
- Routes 5, 17 & detoured 29 (1 stop closed)

No Detour

Detours

Expected

On Detour

For July 2024, there were 8 impacted fixed routes out of 32 fixed route services in operation. This equates to approximately 25% of CCRTA services.

Impacted bus route services include: 16, 19, 21, 23, 25, 27, 37 & 78.

The total number of bus stops that were impacted or closed was 48.

Future City Bond projects, the number of additional bus stops which may be impacted or closed is 36.

### <u>Purchased Transportation Department Report: B-Line Service Contract Standards & Ridership Statistics</u>

In July 2024, B-Line service performance metrics are listed below.

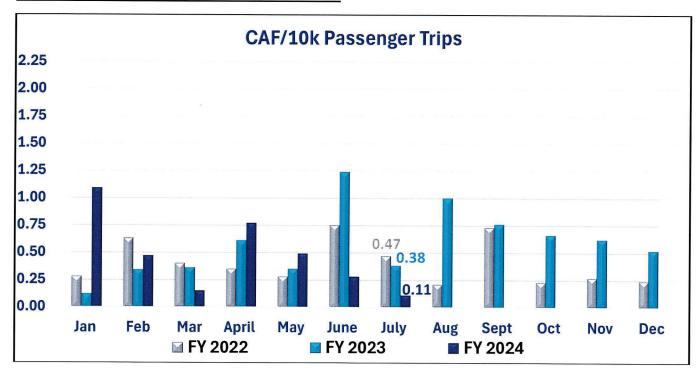

- <u>Productivity</u>: 2.44 Passengers per Hour (PPH) did not meet the contract standard of 2.50 PPH.
- On-time Performance: 89.9% for June did not meet the contract standard of 95.0%.
- Denials: 0 denials or **0.0%** did meet the contract standard of 0.0%.
- <u>Miles between Road Calls (MBRC)</u>: **23,971** did meet the contract standard of 12.250 miles.
- Ridership Statistics: 10,450 ambulatory boardings; 4,498 wheelchair boardings

Metric	Apr-24	May-24	Jun-24	Jul-24	(4) Month-Ave.
Passengers per Hour	2.45	2.51	2.38	2.44	2.45
On-time Performance	87.6%	85.1%	90.6%	89.9%	88.3%
Denials	0.00%	0.00%	0.00%	0.00%	0.0%
Miles Between Road Calls	38,801	29,564	21,139	23,971	28,369
Monthly Wheelchair Boardings	4,401	4,675	4,052	4,498	4,407

### Customer Programs Monthly Customer Assistance Form (CAF) Report

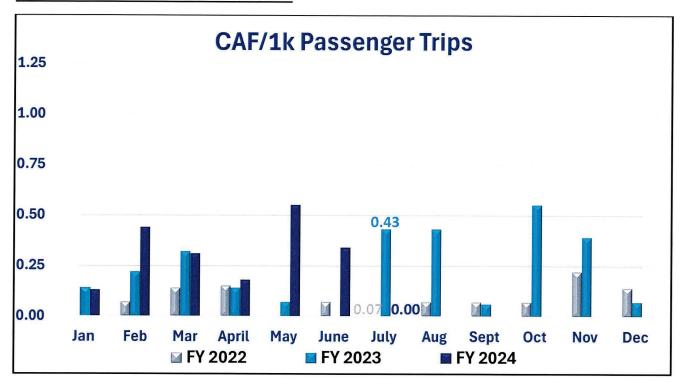

For the month of July 2024, Customer Service received and processed 85 Customer Assistance Forms (CAF's). A total of 71 or 83% were for CCRTA and Contract Fixed Route Services, of which 3 or 0.03% were verified as valid. This equates to approximately **0.11** CAFs **per 10,000** passenger trips. There were 5 commendations received for Fixed Route services.

### Number of CAFs/10k for Fixed Route Services

For the month of July 2024, Customer Service received and processed 85 Customer Assistance Forms (CAF's). A total of 3 were for B-Line Services, of which **none** or 0.0% were verified as valid. This equates to approximately **0.0** CAFs **per 1,000** passenger trips. B-Line Services did not receive any commendations in July.
